STATE CLEARINGHOUSE

NEWSLETTER

November 16 through 30, 2002

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **November 16 through 30, 2002.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Gregoria Garcia (for projects in Northern California)
Becky Frank (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

No Cases have been selected for the period of November 16-30, 2002.

Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

DATE: AUGUST 12, 2002

TO: ALL CEQA LEAD AGENCIES

FROM: TERRY ROBERTS, STATE CLEARINGHOUSE

RE: CONFIRMATION OF RECEIPT FOR NOTICES OF DETERMINATION

We regret to inform you that the State Clearinghouse will no longer be able to honor requests for written confirmation of the posting of a Notice of Determination (NOD) or Notice of Exemption (NOE) with the Governor's Office of Planning and Research (OPR). In the past, and as a courtesy, we were able to comply with requests for written confirmation. However, due to recent budget cuts and an increasing volume of special requests, we can no longer provide such confirmation, either by mail or by fax.

Sections 15075 and 15094 of the CEQA Guidelines spell out the responsibility of the State Clearinghouse to post NODs. Section 15062 (c) of the Guidelines spells out the responsibility of the SCH to post NOEs. We realize the importance of timely posting because this begins a statute of limitations on court challenges. OPR will continue to post NODs and NOEs in a timely manner and enter the notice information in our online CEQAnet database.

If you fax a NOD or NOE to the State Clearinghouse, please retain the fax confirmation for your records. If you file a NOD or NOE with us in person, please provide a second copy of the document and we will at that time be happy to date stamp and return it to you immediately. If you mail a NOD or NOE to us, you may call the State Clearinghouse at (916) 445-0613 to request verbal confirmation of receipt, or obtain written confirmation of posting by printing a report from the CEQAnet database at www.ceqanet.ca.gov.

We apologize for any inconvenience this may cause and will continue to provide the best possible service to the public within our means.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

2002021120	<p>San Diego Creek Watershed Natural Treatment System Program Irvine Ranch Water District Irvine, Tustin, Lake Forest, Laguna Hills, Laguna Woods, ...--Orange</p> <p>The proposed plan that will be evaluated in the Program EIR is the San Diego Creek Watershed Natural Treatment System Program (NTS Program) which has been prepared by IRWD. The NTS Plan describes a watershed-wide system for the natural treatment of low-flow and initial storm runoff generated within the San Diego Creek Watershed and a small portion of the Santiago Creek watershed. The proposed NTS Plan consists of a system of constructed water quality treatment wetlands and natural biofilters. These take advantage of naturally occurring physical, chemical, and biological resources to treat the runoff. The natural and man-made drainage features within the San Diego Creek watershed all drain via San Diego Creek and its tributaries into Upper Newport Bay. These flows then enter Lower Newport Bay on their way to the Pacific Ocean. The portions of the project area located within the Santiago Creek watershed drain primarily into Upper Peters Canyon Reservoir and to Santiago Creek, a tributary of the Santa Ana River.</p>	NOP	12/17/2002
1999042030	<p>Tuolumne County Airport Land Use Compatibility Plan 99TC-02 Tuolumne County Community Development Dept.</p> <p>Adoption of the Revised Draft Tuolumne County Airport Land Use Compatibility Plan which represents a comprehensive revision of the Tuolumne County Airport Land Use Policy Plan, which was adopted in 1977 and has been revised several times since. The Revised Draft Airport Land Use Compatibility Plan was conceptually approved by the Tuolumne County Airport Land Use Commission (ALUC) on October 30, 2002 and consist of the Draft Tuolumne County Airport Land Use Compatibility Plan, prepared by Shutt Moen Associates of Santa Rosa California, in November, 1998, as revised.</p>	Neg	12/17/2002
2002111074	<p>Project No. CUP 02-152 Los Angeles County Department of Regional Planning --Los Angeles</p> <p>An application for a Conditional Use Permit to construct thirty-six (36) additional parking stalls (8 1/2'x18') on the Western portion of Lot 31544 at 31544 Castaic Road for an existing motel complex (Comfort Inn). The project will also include construction an "L" curb and sidewalk adjacent to Castaic Road along the Western boundary, a 40' wide access driveway from the proposed parking area to Castaic Road with 8'x 80' planters adjacent to the driveway along the Northern and Southern boundaries, 30' wide access driveway from the proposed parking area to Ridge Route Road, and an island with landscaping at the center of the parking lot. CUP 86-134 for the existing 142 unit motel complex, located on the same lot, was approved on 8/8/86. 34,240 square feet will be covered by structures/paving, and 1,480 square feet will be covered by structures/paving, and 1,580 square feet will be covered by landscaping.</p>	Neg	12/17/2002

2002111080	La Canada Irrigation District Reservoir Nos. 7 and 9 Improvement Projects La Canada Irrigation District La Canada-Flintridge--Los Angeles La Canada Irrigation District (LLCID) is proposing to upgrade its Water Storage System with a series of improvements for Pressure Zones 1 and 2. The specific improvements addressed in this document include demolition and replacement of existing reservoir No. 7 (0.94 MG) with a new 1.9 MG concrete reservoir.	Neg	12/17/2002
2002111082	Signorelli Minor Residential Subdivision, TPM 20657 Log No. 02-14-003 San Diego County Department of Planning and Land Use --San Diego The project proposes a minor subdivision of 5.42 net acres into four parcels, including one remainder parcel ranging in size from 1.0 to 1.19 net acres, with a 1.0-acre minimum lot size for five residential building sites. There is one existing single-family residence on the remainder parcel, which will be removed. Therefore, all five lots will be developed with single-family homes and accessed through a driveway via Star Lane. All lots will be on septic and will receive water services provided by the Padre Dam Municipal Water District. Grading proposed for project implementation will involve approximately 10,500 cubic yards of cut and 10,500 cubic yards of fill with a maximum cut and fill slope ratio of 2:1 and maximum height of 15 feet. Access to the project site is from Star Lane via a 40-foot wide private road easement.	Neg	12/17/2002
2002112069	Ball Drive/ Windward Development Scotts Valley, City of Scotts Valley--Santa Cruz Project proposes to re-zone existing residential medium and commercial zoning to Residential High Density. The project will consolidate five existing parcels, including one with a single family home into a .921 acre development site to contain 9 single family detached housing units on lots of 2800-3800 square feet in size, with access and circulation to the homes. 2002081034	<p>Sidney Kimmel Cancer Center San Diego, City of San Diego--San Diego Site Development Permit and Coastal Development Permit (SDP/CDP No. 2960) to construct (2) two-story research and development buildings on 3.56 and 2.60 acre sites located at 10905 Altman Row and 3150 Merryfield Row, respectively. The sites are zoned IP-1-1 and are situated within the La Jolla Spectrum Planned Industrial Development (VTM/CDP/HRP/PID No. 89-0269) and in the University Community Plan area. The sites are also within the Coastal Zone, Community Plan Implementation Overlay Zone (B) and Airport Environs Overlay Zone (Lots 1, 2 and 14, La Jolla Spectrum, Map No. 12990).</p>	NOD	
2002092087	<p>New Colgate Powerhouse Tailwater Depression Project Yuba County Water Agency --Yuba The Yuba County Water Agency will install a tailwater depression system at New Colgate Powerhouse. The project involves the installation within the existing powerhouse facility of fabricated equipment that will provide for tailwater depression during higher flows, and operation of the new equipment to maintain powerhouse operations under high-flows conditions that historically required to shutdown of the powerhouse. The objective of these improvements is to enhance the Agency's ability to regulate flood inflow to New bullards Bar Reservoir by providing for additional reservoir release capacity through the powerhouse facilities in advance of and during flood flows. To power the new equipment, an electrical line will be extended from an existing transmission line on the slope north of the powerhouse to three new blowers, and associated electrical equipment will be installed near the powerhouse at the base of the slope and within the powerhouse yard. The project is expected to increase power generation by approximately 328,000 megawatt hours over a 50-year period.</p>	NOD	
2002102053	<p>Negative Declaration for the Honey Lake Ranch VMP (Vegetation Management Project) Forestry and Fire Protection, Department of --Lassen Prescribed fire project designed to improve wildlife habitat for migratory and resident migratory waterfowl populations. The reduction of matterd grasses will reduce predation, and the reduction of tules will increase free surface areas for the effected ponds. The project will be conducted under CDF's Vegetation Management Program (VMP). Future activities include an ongoing burn program occurring approximately every five years to maintain high quality wildlife habitat. Approximately 990 acres will be burned over a period of five years averageing 200 acres per year. This VMP project has been designed to include standard best management practices and already incorporates all appropriate mitigation measures to ensure that any potential adverse environmental impacts are reduced to less than significance or totally avoided.</p>	NOD

1989010154	Otay Ranch Freeway Commercial Sectional Planning Area (SPA Plan) Chula Vista, City of Chula Vista--San Diego The project involves the implementation of the Planning Area 12 SPA Plan for the Freeway Commercial site within the Otay Ranch General Development Plan (GDP) area through the development of a 132.9-acre project and approval of a conceptual tentative map. The project site was identified for freeway commercial uses since approval of the Otay Ranch GDP in 1993 and would be used for commercial purposes, while 12.5 acres would be used for circulation. Grading of 1,620,000 cubic yards of earth would be required for the project. The project would also include a future area reserved for a light rail alignment and a station site for the San Diego trolley, with a park-and-ride component.	EIR	01/03/2003
1999101128	52nd Street Area Elementary School San Diego Unified School District San Diego--San Diego The purposed 52nd Street Area Elementary School would accommodate a planned enrollment of 700-900 students, kindergarten through grade five. The school will principally serve students residing in the Jackson and Marshal elementary school attendance boundaries in the community of City Heights as well as provide a neighborhood elementary school option for students currently transported to overflow schools outside the neighborhood. Approximately seventy (70) off-street parking spaces that would provide at the site.	EIR	01/02/2003
2001012081	Northstar Village Placer County Planning Department Truckee--Placer Proposed expansion of the existing village area at Northstar-at-Tahoe consisting of 213 new residential units, 81 existing units, commercial and retail space, a conference facility and spa, skier service and clinic space, and underground and surface parking and mechanical/service space.	EIR	01/03/2003
2001022031	West Patterson Business Park Master Development Plan, Keystone Pacific Business Park, and Patterson Gardens Patterson, City of Patterson--Stanislaus The proposed project includes light industrial, business park, commercial, and residential uses. Development would occur on two separate but adjacent sites west of downtown Patterson. The West Patterson Business Park Master Development Plan, the light industrial and business park component of the project, would be developed on an 820 acre site located outside of but contiguous to Patterson's western city boundary, and east of I-5. The Keystone Pacific Business Park is the first development application for 224-acres in the Business Park Plan. The Patterson Gardens Planned Development, the project's residential and commercial component, would be annexed to the City of Patterson.	FYI

2002118246	Construction of Ventilation Pipeline at Lake Mathews Outlet Tower Metropolitan Water District of Southern California Riverside--Riverside The Metropolitan Water District of Southern California (Metropolitan) is proposing to construct a ventilation pipeline from the existing outlet tower to the shore of Lake Mathews. The proposed pipeline would be 8 inches in diameter and approximately 300 feet in length. Construction will occur during low-level lake operations to preclude impacts to water quality. Therefore, all excavation will occur in dry conditions (i.e., no underwater excavation). The topography of the project site would be returned to pre-existing conditions after construction is completed.	NOE	
2002118247	District 11 - Swing Space Caltrans, Statewide Facilities San Diego--San Diego The California Department of Transportation (Caltrans) proposes to lease approximately 63,000 square feet of administrative office space in an existing unoccupied office building. The office space is necessary to provide swing space during the construction phase of a new District Office building (staff are currently located on the construction site). The building would house approximately 251 staff. The approximate number of visitors/clients seen weekly is 200. An estimated amount of 261 parking spaces are available and public transit is available within 1/4 mile of the site.	NOE	
2002118248	Streambed Alteration Agreement concerning San Diego River Department of Fish and Game (OSPR) San Diego--San Diego The operator did alter the stream through the unauthorized discharge of fill as a result of a rock slide caused by blasting at the rock quarry above the river. The rock slide impacts are estimated at 0.35 acres of southern cottonwood-willow riparian forest, 0.2 acres unvegetated stream, and 0.25 acres of riparian scrub in a pre-existing mitigation site, for a total of 0.8 acres. The rock slide caused the diversion of the river's flow over Manhole #74 of the East Mission Gorge Trunk	NOE

Sewer Line, owned and maintained by the City of San Diego, Metropolitan Wastewater Department. In order to avert a potential sewage spill, the City of San Diego initiated an emergency repair consisting of the clearing of a temporary access road and placement of on-site rock around the manhole and across the secondary channel to redirect the river back into the main channel (SAA R5-2002-0316). Impacts associated with the City of San Diego's emergency repairs are considered temporary and consist of 0.09 acres of southern cottonwood-willow riparian forest, 0.3 acres of riparian scrub in a pre-existing mitigation site, and 0.04 acres of unvegetated stream, for a total of 0.43 acres. The operator proposes to further alter the stream to remove the unauthorized fill. The removal project involves the excavation of the existing mined slope to create a 75-foot bench adjacent to the river, but above the level of the 100-year flood plain. Once the rock fall area is reached, the rock will be removed from the river with an excavator parked on the bench. The removal of the rock may result in up to 0.17 acres of additional temporary impact. Native riparian habitats found on site include: southern cottonwood-willow riparian forest, riparian scrub, mule fat scrub, freshwater marsh, and open water.

1994033009	Russian River Summer Crossings Sonoma County VARIOUS--SONOMA The Sonoma County Department of Transportation and Public Works proposes to continue the installation and removal of four temporary summer crossings of the Russian River. One crossing is located near the town of Asti (just south of Cloverdale) and the other three are near the city of Guerneville. Installation dates are May 15 to October 15, with the exception of Asti, which is proposed to remain open until November 15 which is typically the end of fire season as determined by California Department of Forestry. The crossings consist of 60 foot temporary bridges that span most of the low flow channel and gravel roads that span the remainder of the river channel. At one crossing there is an 80 ft. permanent bridge. During installation the bridge decks are placed on permanent concrete piers with a large crane stationed on the bank of the pier. Gravel roads are then built from the end of the bridge to the opposite shore. Bulldozers and other large equipment is used for the construction of the roads. Culverts will be placed within the road way at Odd Fellows Road and Summer Crossing Road to allow fish passage and flow continuity between upstream and downstream of the project.	Neg	12/19/2002

One additional area suspected of having additional lead impact soils will be deed restricted to require protective measures for construction workers.	NOD	
2002072049	Nelson Final Map Subdivision FMS-01-03 Humboldt County Planning Department --Humboldt A Coastal Development Permit and subdivision of a 12.2 +/- acre parcel into thirty-nine (39) lots ranging in size from 5,070 square feet to 5.0 acres. Included is a request to reduce the width of a streamside management area (riparian corridor) buffer zone from 100 feet to 50 feet, and a bridge crossing of an intermittent stream area not involving fill in a wetland. An existing road, named "Shadowbrook Street" will be extended to become a loop road serving the proposed lots. An exception to the minimum lot frontage of 50 feet is requested for one lot, which is to be a flag lot. The project includes a blanket coastal development permit for construction of one single family residence each, one story in height (not exceeding 24 feet in height or 2,500 square feet gross floor area) on 34 lots. The project also includes a proposal to allow for placement of a bridge over a streamside management area to provide access to lot 49. All lots will be served with community water and sewer.	NOD	
2002072062	W. El Camino Widening and Bridge Replacement (Cip# TV 66) Sacramento, City of Sacramento--Sacramento The proposed West Elcamino Widening and Bridge Replacement Project would consist of widening West El Camino Avenue for approximately 4,666 feet from two to four lanes and replacing the two lane bridge over the Main Drainage Canal with a four-lane bridge. The proposed roadway widening would consist of a four-lane divided arterial with 12 foot lanes and 6 foot shoulders, classified as Class II bicycle lanes. A-14 foot landscaped median with street lighting would divide the lanes. Additionally, and expanded roadside landscape corridor, a meandering 8 foot sidewalk, street ligts, and a traffic signal are proposed with the widening of West El Camino Avenue. The bridge replacement over the Main Drainage Canal would be a concrete structure, consisting of a reinforced concrete cast in place flat slab stucture with piles, and would be approximately 143 feet long, with 6 foot sidewalks on both sides of the bridge. Orchard Lane would also be reconstructed	NOD

2002112098	Lone Tree Cemetery Expansion, Variance , V-11498 Alameda County --Alameda The application seeks approval of 1. the removal of the eucalyptus trees which occurred during 2000-2001, and a landscaping and tree-replacement program; and 2. permission to expand the burial grounds of the cemetery, to occupy a greater area of land within the existing property boundaries than currently exists, and thus expanding a land use that is legally non-conforming in the R-1-B-E zone district. Until December of 2000 the rear area contained a grow of approximately 1,200 to 1,400 eucalyptus trees, a non-native species; based on an analysis by the applicant's arborist that most of the ecualyptus trees on the site were diseased, deteriorated and otherwis appropriate for removal, an estimated 936 eucalyptus trees were cut down and removed, including 121 large, mature eucalyptus trees as defined by the Fairview Area Specific Plan (30" or more in diameter at 4.5' above ground level). The Specific Plan requires that when eucalyptus trees must be removed for saftey reasons, each large, mature tree is to be replaced with either five 15-gallon trees of any species, or one boxed, native specimen tree (24" box, typically). The project is intended to improve the conditions of landscaping within the cemetery, while replacing a sufficient proportion of pre-existing trees to meet aesthetic and landscape objectives and standards of the cemetery and the County, including the Specific Plan. 2002118284 Easement for Sacramento County Sewer Line **NOE**

Parks and Recreation, Department of
--Sacramento

Issue a temporary construction easement and a longterm sewer line easement to Sacramento County, along the levee road that serves as the entrance to Delta Meadows River Park. The temporary easement will encompass 3200 square feet of property at the northerly end of the primary easement, which will be 15 feet wide and approximately 1000 feet in length. Sacramento County proposes to install a 4-inch sewer line along the primary easement and will operate and maintain the sewer line for the term of the easement agreement. The new sewer line will replace a deteriorating, existing, privately owned sewer system serving the community of Locke. The levee road and park entrance will remain open throughout construction. The easement will provide legal access and use of this property to Sacramento County, while protecting park resources and public health, and providing a potential wastewater treatment option for future park facilities. Environmental review of the sewer project is available in the Sacramento County Locke Sewer Rehabilitation, CSD-1 Sphere of Influence Amendment and Annexation to CSD-1 Initial Study/Negative Declaration, filed with the Governor's Office of Planning and Research (SCH#1999062085-June 21, 1999).

2002118285 San Juan Bautista State Historic Park **NOE**

Parks and Recreation, Department of
--San Benito

Repair sinkhole in the plaza to the historic stable at San Juan Bautista State Historic Park. Sinkhole is currently approximately 6 feet in diameter and 6 feet in diameter and 6 inches deep, but is slowly increasing in size and depth (1-2 inches per day). Soil is separating from the adjacent Stable foundation. Area of sinkhole will be excavated, stabilized, filled, and resurfaced to match surrounding surface. Adjacent services (water, drains, sewer system) will be evaluated for possible damage and repaired as necessary. Natural and cultural resource monitors will be on-site as necessary throughout construction, and work will be completed in compliance with all federal, state, and local regulations, permitting requirements, and DPR policies.

2002071014	Environmental Assessment Application No. C-02-061 Fresno, City of Fresno--Fresno Authorization for vacation, acquisition, clearance, off-site improvement, and transfer of land for 9.72 acres within the downtown area. The project site is zoned C-M/CCO, Commercial and Light Manufacturing/Civic Center Overlay, and M-1, Light Industrial.	NOD	
2002091048	New K-8 School in the Lake Hills Development Alvord Unified School District Riverside--Riverside New K-8 school with 1,200 maximum student enrollment capacity.	NOD	
2002091095	Tustin Avenue and Bridge Widening South Orangethorpe Orange County Anaheim, Placentia--Orange Upgrade Tustin Avenue and bridge to a major arterial highway standard and widen both sides of the existing concrete slab (bridge) over the Atwood Channel (No. E04), including sidewalks and improvements to the Tustin Avenue/Orangethorpe intersection. Two additional through lanes would be constructed, expanding the existing four lanes as well as one additional left-turn lane.	NOD	
2002092096	Department of Motor Vehicles South Facility Replacement Project Motor Vehicles, Department of Sacramento--Sacramento The Department of Motor Vehicles proposes to construct a new Sacramento South DMV field office to replace the existing field office on Florin Mall Drive. The new building will be an approximately 15,000 square foot single-story structure on 3.5 acres to be acquired by the State. The project also includes the construction of a fenced, paved parking lot with 176 parking spaces for use by employees and DMV customers. The new facility would accomodate up to 36 DMV employees. Development of the site would include trees and plants to be installed along the perimeter of the site, as well as throughout the parking lot and around the new building. Nighttime lighting will be placed around the DMV building for security.	NOD	
2002101084	Removal Action Workplan for the 32-Acre Parcel of the Former Cornfield Rail Yard Toxic Substances Control, Department of Los Angeles, City of--Los Angeles The proposed Removal Action project would be implemented under the direction of the State of California Environmental Protection Agency, Department of Toxic Substances Control pursuant to Health and Safety Code Section 25355 (a)(1)(C). The removal action project proposes excavation and transport of contaminated soil to an offsite facility for treatment and disposal. The proposed remval of contaminated soil will be conducted in accordance with the methods, and procedures presented in the document entitled "Removal Action Workplan (RAW)". Approximately 2,850 cubic yards of contaminated soil, which is found predominantly in the top one and a half feet, will be excavated and transported to a state approved treatment facility in Kettleman City, California. Following the successful completion of the remoal action, excavated areas will be backfilled with clean soil. The Removal Action goals are almed at reducing concentration, such that future exposure to humans and potential ecological receptors are minimized, while at the same time reducing the potential for migration of constituents to groundwater beneath the Site. During its operational history, the former Cornfield Rail Yard was predominatly used as a railroad maintenance yard which also	NOD

	provided passenger and freight rail services within the former Rail Yard. The Site is currently vacant and undeveloped. Chemicals of concern Include TPH, lead and arsenic in shallow soils at the Site.		
2002119034	Hillside Meadows, TM 5203RPL San Diego County --San Diego The project is the subdivision of 37 acres into 142 single-family residential lots, 2 industrial lots, a public park, and a 20-foot trail easement.	NOD	
2002118286	Emergency Repair of Riprap Bank Protection Along Lake Havasu Shoreline at the Whitsett Intake Pumping Plant of the Colorado River Aqueduct Metropolitan Water District of Southern California --San Bernardino Metropolitan Water District of Southern California (Metropolitan) is proposing to repair an approximately 200-foot section of riprap bank protection that was damaged in a September 2002 storm event. Emergency repair is required to protect the sole access road and prevent further damage to the Whitsett Intake Pumping Plant facilities. The repair activities will take place entirely within the footprint of existing riprap along approximately 200 linear feet of the lake shore. No wetland or riparian habitat will be impacted by the repairs.	NOE	
2002118287	Repair of Northeast Slope at Rober B. Diemer Filtration Plant Metropolitan Water District of Southern California Yorba Linda--Orange Metropolitan Water District of Southern California (Metropolitan) is proposing to repair a minor landslide located on an approximately 5,000-square foot area on the northeast slope at the plant. The vegetation at the project site will be removed and discarded. Topsoil from the slope will be stockpiled on site and will be replaced after slope remediation. Additional on-site fill dirt will be placed on the slope and compacted.	NOE	
2002118288	Conditional Use Permit No. 2002-24 with Development Review (DR) No. 2002-37 Burbank, City of Burbank--Los Angeles To construct a 1,600 s.f. two-story addition to an existing 46,600 s.f. three-story telephone switching equipment building. Extension will house additional switching equipment. CUP requested for downtown parking area determination.	NOE	
2002118289	Stream Alteration Agreement No. R4-2002-0136, Hatch Creek Fish & Game #4 --Tuolumne The Project will replace an existing ford crossing with a bridge at the same location and on the same alignment. Bridge construction will be a two railroad flat cars with a wooden deck placed on concrete abutments. The structure will clear span Hatch Creek. The new bridge will be approximately 53 feet long and 22 feet wide. The Operator will construct reinforced concrete bridge abutments on the banks of Hatch Creek. The excavation for each abutment (including wingwalls) will be approximately 30 feet long, 5 feet wide and 7 feet deep. These abutments will support the railcar bridge.	NOE

2002081135	<p>P. Kay Metals, Inc. Vernon, City of Vernon--Los Angeles</p> <p>This project is to reconstruct the facility destroyed by the fire and will include considerable improvements to the facility, including an increase in manufacturing capacity in more modern equipment, a 7,200 square-foot increase in building size, a new and larger baghouse for improved environmental controls, and improved material handling capabilities. The building size will be increased from 10,650 square feet to 17,850 square feet to accommodate increased inside storage areas, increased manufacturing area, and an increase in office space to accommodate four additional employees formerly located at offsite offices.</p>	NOD	
2002082058	<p>Peralta Hacienda Historical Park Oakland, City of Oakland--Alameda</p> <p>The proposed project is an update of the Master Plan for the existing six-acre Hacienda Peralta City park. The Master Plan Update retains many of the Park's existing elements, modifies some and adds several new features. The proposed park elements include: enlarging the lawn area along Coolidge Avenue which includes demolition of two residential buildings located at 2528 Coolidge Avenue and 3300 Paxton Avenue; a new Community Center consisting of four "cottages" made of adobe for use a multi-purpose room, a kitchen, a workshop and a greenhouse; a garden area devoted to plants that are representative of the different peoples who occupied the site and neighborhood, a community garden, renovation of the Victorian garden surrounding the Peralta house and planting fruiting orchard trees; a 100-foot long modern adobe wall, a stage for community performances with a subsurface storage space below the stage, a ramada (trellis with vines) over the footprint of the 1840 adobe, "Urban Books" (a series of vertical display boards with pages that allow for a variety of juxtapositions of interpretive material), interpretation of 1820 adobe, 200 linear feet of seat-height adobe walls, a 25 foot long community table surrounded by a citrus grove and an adobe oven that will be used by the community during events; two playgrounds; A new ramp and replacement of the existing stairway to connect the upper portion of the park with the lower portion of the park where reconstituted Peralta Creek currently exists are proposed. New features in the lower area of the park include reconfiguration of the existing reconstituted segment of Peralta Creek to provide greater variety of water affects, an area for use as a small outdoor amphitheater with bench seating, a display for Native-American interpretation, a small addition to the existing restroom to provide storage area for educational programs, a water-mediation rest area and new picnic tables; archaeological Protective Zones will be established around the barro pit and around the historic well and archaeological scraping of other portions of the park where historic remains may exist will be undertaken as directed by a qualified archaeologist. The improvements identified in the Master Plan will be constructed in 9 phases.</p>	NOD	
2002091057	<p>Faculty and Staff Housing Projects and California Avenue and Southern Radial Street Improvements University of California, Irvine Irvine--Orange</p> <p>The proposed project is to (A) lease approximately 14 acres of land to the Irvine Campus Housing Authority (ICHA) for the construction of approximately 80 faculty/staff homes within an area referred to as "University Hills Area 8 Expansion", and (B) lease approximately 4 acres for up to 100-multi-family</p>	NOD

	housing units on Gabrielino Drive. The proposed project also proposed to amend the Long Range Development Plan to change the land use designation on the 14-acre area from Elementary School/Open Space and Recreation to Faculty/Staff Housing. The description of permitted uses in the Faculty/Staff Housing designation would be expanded to include elementary schools. This would allow the developmetn of an elementary school on up to 14 acres anywhere within the Faculty/Staff Housing land use designated area. This LRDP amendment will maintain the ability of the campus to comply with LRDP Mitigation Measure 100, which requires accomodation of a future elementary school site.

1995011015	<p>Newhall Ranch Specific Plan and Water Reclamation Plant Los Angeles County Santa Clarita--Los Angeles</p> <p>The applicant has prepared the Newhall Ranch Specific Plan which covers a total 11,963 acres. As directed by the Court, the County will again consider approval of the Specific Plan and WRP, but only with respect to the additional analysis of the issues indicated above. The Specific Plan includes 21,615 dwelling units on 4,835 acres (including an 18-hole golf course, 10 neighborhood parks and seven schools), 630 acres of mixed-uses (including residential, office, and retail commercial uses), 67 acres of commercial uses, 256 acres of business park uses (including light manufacturing, warehousing and distribution), 37 acres of visitor serving uses, 6,138 acres of open area, 3 community parks on 186 acres, and 367 acres of arterial roads and community facilities (including a new 6.9 million gallon per day water reclamation plant, one library and two fire stations). The Specific Plan would build out over approximately 25 to 30 years, with market forces driving the phasing schedule. Development of the Newhall Ranch Specific Plan area would result in an on-site resident population of approximately 59,000 persons.</p>	EIR	01/10/2003
2002091125	<p>The Neighborhood Preservation Redevelopment Project Huntington Park, City of Huntington Park, Bell, South Gate, Cudahy, Maywood--Los Angeles</p> <p>The proposed Project will adopt and implement a Redevelopment Plan in the City of Huntington Park. The proposed Project Area consists of approximately 912 acres and is the focus of this environmental assessment. The Community Development Commission of the City of Huntington Park has proposed the Project for the purpose of alleviating a blight and promoting reinvestment in the Project Area. Although no development or construction is proposed at this time, implementation of the Redevelopment Plan is expected to facilitate infrastructure improvement and rehabilitation activities consistent with the adopted City of Huntington Park General Plan.</p>	EIR	01/10/2003

Coastal Sage Mitigation (02/03-SD-30) Parks and Recreation, Department of --San Diego Project consists of removing invasive exotic species within the reserve in a previously disturbed area of coastal sage and remnant patches of salt marsh and replanting with coastal sage scrub. The project is mitigation proposed by a mitigated negative declaration for a City of San Diego project.	NOE	
2002118377	Del Mar Fairgrounds Grandstand and Clubhouse Seating and Dining Terraces Extension 22nd District Agricultural Association Del Mar--San Diego Six new Grandstand and two new Clubhouse dining terrace rows; three new Clubhouse box seating rows.	NOE	
2002118378	California-Oregon Transmission Project, Vegetation Management and Access Road Upgrades Transmission Agency of Northern California --Siskiyou Existing access roads and transmission right-of-way associated with Towers 310 to 320 require rehabilitation and maintenance to continue and provide adequate access to and reliability of the COTP. Proposed maintenance activities would include regrading of the existing access roads, the installation of water bars along the existing roads, the rehabilitation of erosional areas along existing access roads, and the removal of vegetation with mechanical or manual equipment. The purpose and need for these maintenance activities is to allow access to the towers for routine operation and maintenance and also for all-weather access for emergency operation activities.	NOE	
2002118379	Mariposa's Rehabilitation of Existing Leaking Distribution System Components Mariposa Public Utilities District --Mariposa Increase pipe size to meet existing Water Works Standards and fire flow requirements.	NOE	
2002118380	Recreation Center Energy Management System San Luis Obispo, City of San Luis Obispo--San Luis Obispo Install devices to improve the efficiency of existing heating and cooling equipment.	NOE	
2002118381	Water Reclamation Facility Cogeneration System San Luis Obispo, City of San Luis Obispo--San Luis Obispo Replace an existing 125 kW piston-engine generator and associated equipment, which used methane produced in the treatment process, with eight microturbine electrical generators having a combined capacity of 240 kW, and associated equipment, also to use effluent-origin methane. Electricity produced by the microturbines would offset grid-delivered power, and exhaust heat would be used	NOE
